ENROLMENT INFORMATION 2025

IMPORTANT DATES

Open Day **Wednesday, 7 August, 2024**
Please report to the Auditorium
Session times:
9.15am, 1.30pm and 5.30pm

**APPLICATIONS FOR ENROLMENT MUST BE
RECEIVED BY THE FOLLOWING DATES:**

In Zone

Year 9 23 August 2024

All other levels from 26 August 2024

Out of zone

Year 9 23 August 2024

All other levels 14 October 2024

ENROLMENT PROCEDURE FOR 2025 STUDENTS

Hillcrest High School will enrol students to comply with the legislation requirement. All students living 'permanently' within the school zone will be automatically enrolled. Out of zone places will be determined by ballot. No more students will be excluded from enrolment than necessary to avoid overcrowding or the likelihood of overcrowding. The ballot is conducted by an external authority.

PRIORITY LEVELS FOR OUT OF ZONE APPLICATIONS

Applications for out of zone enrolment will be processed in the following order of priority:

First priority will be given to students who have been accepted for enrolment in the following special education programme(s)¹. (Independent Living Centre and Physical Assistance Centre, ORS funded) run by the school and approved by the Secretary for Education.

Second priority must be given to any applicant who is a sibling of a current student of the school.

Third priority must be given to an applicant who is a sibling of a former student. (We will require name/s)

Fourth priority must be given to any applicant who is a child of a former student of the school (We will require name/s and proof of attendance)

Fifth priority must be given to any applicant who is either a child of an employee of the Board of the School or a child of a member of the Board of the School.

Sixth priority must be given to all other applicants.

If there are more applicants in the second, third, fourth, fifth or sixth priority groups than there are places available; selection within the priority group will be by a ballot conducted in accordance with instructions issued by the Secretary under Section 11G(1) of the Education Act 1989. Parents will be informed of the date of any ballot by notice in a daily or community newspaper circulating in the area served by the School.

APPLICATIONS for ENROLMENT

In Zone

The Board of Trustees requires proof of residence within the school zone. In zone applicants who want to enrol at Hillcrest High School must attach to their completed enrolment documentation the following documents:

- A copy of a birth certificate or passport in the student's name
- Evidence of proof of residence within the school zone (one of the following: recent electricity, recent telephone bill, tenancy agreement, sale and purchase agreement).

Out of Zone

Out of zone applicants who want to enrol at Hillcrest High School must attach to their completed enrolment documentation the following:

- A copy of a birth certificate or passport in the student's name.

YEAR 9 ENROLMENT

In zone applications

All Year 9 in zone applications with necessary documentation must be received at the school by the Friday, 23 August, 2024.

Out of zone applications

The number of out of zone students the school accepts at Year 9 is based on the number of in zone students enrolled. All out of zone student applications become part of the ballot process and a set of priorities as is explained in our documentation. This is the same process at all Hamilton state secondary schools with enrolment schemes.

All Year 9 out of zone applications must be at Hillcrest High School by Friday, 23 August. The ballot process for Year 9 out of zone students will be completed by Friday, 30 August and parents notified in writing by Friday, 6 September and acceptance of enrolment must be confirmed by Friday, 20 September.

YEAR 10 - 13 ENROLMENTS

In zone applications

Applications for enrolment in Year 10 to Year 13 will be formally received from Monday, 26 August. All students living 'permanently' within the school zone will be automatically enrolled.

Out of zone applications

Out of zone places will be determined by ballot at each level, subject to the capacity of the school. All Year 10 - 13 out of zone applications must be received at Hillcrest High School by Monday, 14 October. The ballot process will be completed by Friday, 18 October and parents notified in writing by Friday, 25 October and acceptance of enrolment must be confirmed by Friday, 8 November

SPECIAL EDUCATION PROGRAMMES¹.

The school operates special programmes in the special education units: Independent Living Centre and Physical Assistance Centre. Students who live within the school's home zone and meet the criteria for enrolment in the special programmes will be enrolled ahead of out of zone students.

The criteria for acceptance into the programmes are as follows:

- Priority needs of students
- All students should be verified in terms of the On-going and Reviewable Resourcing Scheme (ORS)

If there are more applicants than there are places available, selection within the priority group will be by ballot conducted in accordance with instructions issued by the Secretary under Section 11G(1) of the Education Act 1989. Parents will be informed of the date of any ballot by notice in the Waikato Times.

GENERAL INFORMATION FOR 2025 STUDENTS

Course Material Charges

In some courses (Materials Technology Metal/Wood/Fabrics, Art and Food and Nutrition, etc) students are charged for the cost of materials used in any work which they can take home. Notification of these charges is the responsibility of each Head of Department and will be explained to students by the teachers concerned. Similarly non-curricular trips and outdoor education activities must be self-funding.

Free Text Books

Textbooks for the various courses will be issued free to students as they are required. At the end of each year students are required to return these books or to pay for any losses or damage.

Stationery

We offer an online ordering service through Officemax visit www.myschool.co.nz and choose Hillcrest High School to purchase your stationery and have it delivered to your home.

Bring Your Own Device (BYOD)

It is highly recommended that all students bring a laptop or Chromebook to school to support and enhance their learning. Please refer to information on our BYOD website (link can be found at www.hillcrest-high.school.nz).

YEAR 9 LEARNING AREAS

English - Health & Physical Education -
Mathematics - Science - Social Sciences -
Creative Arts - Technology - Learning
Languages

Compulsory full year subjects:

All Year 9 students study the following:

- ✓ English
- ✓ Physical Education & Health
- ✓ Mathematics
- ✓ Science
- ✓ Social Studies

Choosing your subjects (a total of 6 courses, 3 per semester):

Compulsory One-Semester Digital Technology course:

- ✓ Matihiko
OR
- ✓ Digital Technologies

All students study one subject from each of the following learning areas:

- ✓ Creative Arts
- ✓ Technology
- ✓ Learning Languages

All students study another two subjects from any one of the following learning areas:

- ✓ Creative Arts
- ✓ Learning Languages
- ✓ Social Sciences-Financial Capability
- ✓ Technology

All subjects are timetabled and are only taught if sufficient numbers of students wish to study them. Refer to the Year 9 Choosing your Subjects form in the Enrolment Information document.

COMPULSORY FULL YEAR COURSES

ENGLISH

English is all about communication and language, enjoying and studying oral, written and visual texts.

Students will become increasingly skilled speakers and listeners, readers and writers, presenters and viewers.

There are three thematic based modules throughout the year. Assessment will be through several common tests and an end of year exam.

CONTACT PERSON: Ms K Stevenson

PHYSICAL EDUCATION & HEALTH

The Junior Physical Education and Health Programme is influenced and guided by the Principles of Hallison's model of Social Responsibility and our HHS Physical Education values.

This course delivers topical units of work for Physical Education and Health Education. Physical Education has an emphasis on participation in a range of physical activities. We deliver activities and learning in the

areas of striking games, net games, invasion games, team activities, Year Nine PE Cup, Maori games, Move your Body and Fitness. Health education is taught in three week blocks throughout the year. The units are linked to Maori concepts, values and whakatauki, covering topics such as positive relationships, identity, online behaviour and decision making.

The 4 key strands from the Health and Physical Education curriculum are explored and some achievement objectives from each strand are assessed. Our aim is to develop our students into confident, well rounded individuals, capable of making sound decisions both now and in the future.

CONTACT PERSON: Mr H Uivel/Mrs N Parsons-Roberts

MATHEMATICS

This course consolidates, explores and develops content and processes from the New Zealand Curriculum. Content from Number & Algebra, Geometry & Measurement and Statistics strands is presented within a range of meaningful contexts.

Calculators are used and all students are recommended to purchase a Casio scientific calculator at the beginning of the year. Students do end of topic assessments and a three hour exam. They are also offered the opportunity to take part in various Maths competitions.

CONTACT PERSON: Mr S Achary or Mr A Lal

SCIENCE

Nau mai, haere mai ki te Putaiao. Learning Science is fundamental to understanding the world in which we live. This course develops a range of scientific skills and knowledge all within contexts that inspire enthusiasm and discovery. Each context covers the four main learning areas along with the Nature of Science interwoven throughout.

Learning Areas

- Living World
- Physical World
- Planet Earth and Beyond
- Material World

Within these contexts, students will have the autonomy to direct their learning into areas of interest as well as experience Science in the real world, through individual and group learning.

Science at Hillcrest High School is designed to teach students the skills necessary to be lifelong learners within the Science context.

CONTACT PERSON: Mrs H Gregory

SOCIAL SCIENCES

SOCIAL STUDIES

Social Studies is about how societies work and how people can participate as critical, active, informed, and responsible citizens. Students will develop a range of important skills, such as communication, collaboration and problem-solving. Year 9 students explore the ideas of culture, Te Ao Maori and engage with the histories and stories of our

Mana Whenua. Students are encouraged to and provided with opportunities to actively engage with their communities.

CONTACT PERSON: Ms L Campbell

SEMESTER (HALF YEAR) COURSES

CREATIVE ARTS

ART (9ART)

This course is designed for students to develop new practical art skills and build confidence in their artistic abilities. Students are given the opportunity to explore their creativity through the use of different media and art techniques. This is a practical skills-based course with some written artist model research.

TAKE HOME COMPONENT: \$15

CONTACT PERSON: Ms A Alva

DRAMA (9DRA)

This course offers a range of skill based activities leading from improvisation to production drama. Students have the opportunity to develop confidence in speaking, communication and body language skills. They get to explore theatre and stage craft by using costumes, sound effects and props. Drama also provides the opportunity to work collaboratively with others and develop group work skills. This is a practical course with some written planning for group and individual performance.

CONTACT PERSON: Mrs S Binks

MUSIC (9MUS)

This course aims to develop performance skills and musical confidence while establishing students' understanding of basic musical concepts through musical knowledge, learning to read music and digital music production. Students are given the opportunity for musical exploration and creativity through composition and music technology. Students are taught to use online music production programs and produce their own compositions and songs. Of the three periods of music a week, one is for practical music and learning to play in a band.

Students may be invited to learn an instrument to develop their musical ability.

CONTACT PERSON: Mr M Cook

LEARNING LANGUAGES

FOUNDATION ENGLISH (EF) - by invitation

This course is designed to meet the English language learning needs of students who are working at Foundation and Stage One levels of The English Language Learning Progressions (ELLP).

Students are provided with differentiated programmes to build on their strengths and support their English language learning needs across the four skills areas of reading, writing, listening and speaking. Regular time is spent on learning high frequency vocabulary as well as topic work. As students increase their confidence and language proficiency they move into mainstream subjects.

ENGLISH LANGUAGE LEARNING (9ELL)

This English Language Learning course is designed for Year 9 English language learners from a range of language and cultural backgrounds. The course gives students extra time to improve their English listening, speaking, reading, writing and vocabulary levels

Students also study mainstream English or Foundation English depending on their language proficiency.

Some students will move on to 10ELL or to mainstream English at the end of the year as recommended.

CONTACT PERSON: Ms J Blank

FRENCH, SPANISH, JAPANESE, CHINESE (9FRE, 9SPA, 9JAP, 9CHI)

These courses will meet the needs of beginners and those with some prior learning. The programmes all offer an introduction to the main communicative skills of listening, speaking, reading and writing, integrated with cultural knowledge. In Japanese and Chinese, students will also learn the language specific scripts, which are Hiragana in Japanese and the Chinese Characters in Chinese. The languages department is innovative in its use of digital tools, and students will be encouraged to make use of a variety of websites and applications and bring language and culture to life in our classrooms.

Students who have significant prior knowledge may have an opportunity to accelerate, and should discuss this with the head of department

CONTACT PERSON FRENCH: Mr M Menard

CONTACT PERSON JAPANESE: Ms F Akiyama

CONTACT PERSON CHINESE: Ms C Howard-Shi

CONTACT PERSON SPANISH: Ms D Roznawska

TE REO MĀORI (9MĀO)

This course offers an introduction to the main communicative skills of speaking, listening, writing and reading in Te Reo Māori. Students who have significant prior knowledge of Te Reo Māori (as in those from a kura kaupapa background) should discuss an alternative programme with the HOD Māori.

CONTACT PERSON: Whaea Caseyemia

SOCIAL SCIENCES

MONEY MATTERS (9MYM)

Empowering You Financially

This course equips you, our students (ākonga), with the knowledge and skills to achieve financial well-being. By becoming financially savvy, you'll be able to manage your future income effectively and build wealth.

The Course Breakdown

The course is divided into four modules that progressively build your financial literacy:

- Module 1: Your Financial Identity
- Module 2: Managing Your Money
- Module 3: Growing Your Wealth
- Module 4: Spending Wisely

Overall Course Goal

The main objective of this program is to empower you to understand the importance of money management in achieving financial

well-being and fulfilling your life goals. It leads onto further future study in commerce related subjects in Enterprise, Commerce, Economics, Business studies and Accounting.

CONTACT PERSON: Mr S Wakerley

TECHNOLOGY

DESIGN & VISUAL COMMUNICATION (9DVC)

This course encourages individual thinking and creativity in product or architectural design and provides the foundation for learning in Design and Visual Communication at senior level.

The course aims to provide a variety of design and drawing experiences that are challenging, creative, useful, and enjoyable and that draw upon students' interests and cultural backgrounds. Students will further develop their knowledge of the principles and elements of design and extend their ability to apply a design process to solve design problems.

Aspects of the course include:

- Presentation techniques, basic sketching techniques, colour rendering, basic principles of design, application of the design process, using design briefs and model making.

Topics may include:

- Drawing basics, Zoo Kiosk design, Sketch up (CAD) modelling

TAKE HOME COMPONENT: \$10

Students are encouraged to purchase their own A3 pad of drawing paper, 2B pencil and coloured pencils.

CONTACT PERSON: Mrs S Paris

ELECTRONICS (9ELT)

This introduction to electronics includes designing and building a range of visual and audio projects. Students will learn about:

- electricity
- circuits
- electronic components
- how to solder
- programmable electronics

Students will be assessed on skills gained from the three strands of the Technology curriculum.

TAKE HOME COMPONENT: \$25

CONTACT PERSON: Mr D Hopkirk

A Digital Technology course is compulsory. You can choose between MKO or DTG

MATHIKO - COMPUTER LITERACY (9MKO)

This course covers all aspects of the Digital Technologies areas in the Curriculum.

Students will gain vital skills and knowledge using digital technologies in contexts that are transferable to other areas of learning. The focus will be on being able to design and create digital outcomes and having a good understanding of computational thinking. MKO will be taught in a classroom using the students own device. This is a great opportunity for students to learn a wider range of applications accessible on their device.

OR

DIGITAL TECHNOLOGIES (9DTG)

The aim of this more in-depth course is to introduce students to innovative software and areas of the Digital Technologies curriculum to build on in later years. The course is made up of units such as:

- Design a page using bitmap images for a publication
- Develop an outcome using 3D modelling software to be 3D printed
- Develop and code a simple game

The Digital Technologies progress outcomes and key strands from the Technology curriculum are explored and assessed.

TAKE HOME COMPONENT: \$5 for 3D printing.

CONTACT PERSON: Mr P Blignaut/Miss C Bourke

FOOD TECHNOLOGY (9FNT)

The aims of this course are to develop knowledge and practical skills in the preparation, cooking and service of food. Students will think creatively and critically, make decisions, learn to work in a team and begin to understand the place of technology in our world today. The content of the course is focussed around practical work and includes working with recipes, food safety, eating for good health and the development of a snack food for a teenager.

DONATION TOWARDS COST OF FOOD: \$30

CONTACT PERSON: Mr G Cogan

MATERIALS TECHNOLOGY - WOOD (9MTW) or METAL (9MTM)

This is a practical based course involving the planning, design and development of outcomes from a brief. There is an emphasis on designing outcomes that are suitable for intended use, as well as developing practical skills using a range of materials and equipment to complete a chosen outcome. Students will also learn various aspects of the technology curriculum which supports their classroom practice and helps develop a deeper understanding of technology in the modern world. Costs involved relate to materials used.

TAKE HOME COMPONENT: \$40

CONTACT PERSON: Mr B Smith

MATERIALS TECHNOLOGY FABRICS (9MTF)

This is a practical based course focussed around working with a range of fabrics. Students are encouraged to be creative and develop their skills in using a range of materials and equipment.

TAKE HOME COMPONENT: \$35.00

CONTACT PERSON: Mrs S Paris

THE FOLLOWING TWO COURSES ARE BY INVITATION AND WILL RUN LATER IN THE YEAR

JEEP

Junior Enrichment & Extension Programme – by invitation

Rationale

Hillcrest High School's Junior Enrichment and Extension Programme (JEEP) is offered in Year 9 (in Semester 2) and in Year 10 (in Semester 1). The goal of JEEP is to offer our junior gifted students opportunities to enrich and deepen their thinking and learning through inquiry driven classroom activities and EOTC experiences such as trips to the international film festival, live performance, exhibitions, tours of thought-provoking places and physical challenges. Students who take JEEP go on to excel in a range of areas, from sport, to academic subjects, music and the arts, cultural activities and many other extra-curricular activities. The majority of our senior student leaders at Hillcrest began their path to leadership in JEEP.

9JEEP runs in Semester 2 each year, allowing our new Year 9 students to settle into the routines of High School during Semesters 1.

10JEEP is run in Semester 1 of Year 10, building upon and extending the foundations laid in 9JEEP.

Note: It is possible to apply for 10JEEP, without having done 9JEEP.

Selection Procedures

The selection process is rigorous for JEEP and includes a collation of the following information:

1. Assessment data available from contributing schools as well as our current AsTTle & PAT data;
2. Self-referral from students;
3. Teacher recommendation including discussions with Deans, Hauora teachers and subject teachers;
4. Also for Year 9 JEEP, assessment from observations made on our two-day retreat at Hamilton Gardens Pavilion. Here we run various activities to challenge and stimulate you. These range from group projects, team building exercises, to quizzes and creative thinking tasks.

Framework

JEEP's course is designed around the Autonomous Learner Model (Betts, 1985) to meet the cognitive, emotional and social needs of gifted students. By developing students' autonomy for lifelong learning, JEEP fosters a growing awareness of the world around us through inquiry-based learning and reflection, debate and discussion. Students are encouraged to master concepts by presenting seminars to their peers, completing individual and group

research projects and creating action plans for positive change within our community.

CONTACTS: Mrs J Kennedy

YEAR 9 SPORTS DEVELOPMENT PROGRAMME – by invitation

Application Process

Students interested in this course should complete an application form before starting at Hillcrest High School. Successful applicants will be invited to join the Year 9 Sports Development program, which runs as a half-year option course (either Semester A or B).

Course Content

The program covers a range of topics, including:

- * Skill Acquisition
- * Character Development
- * Human Anatomy
- * Team Games
- * Adventure Based Learning (ABL)
- * Learning to Train for Sports
- * Physical Fitness Testing

Learning Approach

The course combines classroom theory with practical application in physical settings, ensuring that students can effectively put their knowledge into practice.

Progression

At the end of the year, students who actively engage in the course and demonstrate strong sporting abilities will be invited to join the Year 10 Sports Development program the following year.

CONTACT PERSON: Mr Devin Stephenson

YEAR 10 LEARNING AREAS

English - Physical Education & Health -
Mathematics - Science - Social Sciences -
- Creative Arts - Technology - Learning
Languages

All Year 10 students study the following compulsory full year subjects:

- ✓ English
- ✓ Physical Education & Health
- ✓ Mathematics
- ✓ Science
- ✓ Social Studies

Compulsory one-semester Digital Technology course:

- ✓ Matihiko
OR
- ✓ Digital Technology - Media
OR
- ✓ Digital Technology - Programming

All students study one more subject from the following Learning areas:

- ✓ Creative Arts
- ✓ Technology

All students study another subject from any one of the following learning areas:

- ✓ Creative Arts
- ✓ Social Sciences- Enterprise Studies
- ✓ Technology

PHYSICAL EDUCATION & HEALTH

The Junior Physical Education and Health Programme is influenced and guided by the Principles of Hallison's model of Social Responsibility and our HHS Physical Education values.

The Year 10 PE programme is designed to empower our students to start to make lifelong decisions in terms of personal fitness, lifestyle and recreational choices. Our units of work emphasize cultural diversity, team work, skill acquisition and sports science, personal fitness,

collaborative learning and traditional Maori games. We deliver units of work covering Athletics, World of Sport Asia, World of Sport USA, World of Sport Europe, Move Your Body, Ki-O-Rahi, Year 10 Ki-O-Rahi Cup and Sports Education.

Health Education is taught in blocks throughout the year. The units are linked to Maori concepts, values and whakatauki, covering topics such as intimate relationships, accepting diversity, drug and alcohol use, and appropriate online behaviour.

The 4 key strands from the Health and Physical Education Curriculum are explored and some Achievement Objectives from each strand are assessed.

Our aim is to develop our students into confident, well rounded individuals, capable of making sound decisions both now and in the future.

SOCIAL SCIENCES

SOCIAL STUDIES

Social Studies is about how societies work and how people can participate as critical, active, informed, and responsible citizens. Students will develop a range of important skills, such as communication, collaboration and problem-solving. Year 10 students explore New Zealand's place in the world and consider the role that they can play in our increasingly globalised society. Students are encouraged to and provided with opportunities to actively engage with their communities.

CONTACT PERSON: Ms L Campbell

CREATIVE ARTS ARE FULL YEAR AND/OR SEMESTER COURSES

CREATIVE ARTS

ART (10ART & 10ARTS)

This course aims to develop students' practical art skills and creative thinking. Students can either study Art for one semester (two terms) or two semesters (full year). Students are encouraged to explore their creativity and develop their art making skills through painting, drawing, printmaking, sculpture and design. Both of the 10ART courses are prerequisites for Level 1 Paint/Print or Level 1 Photo/Design.

TAKE HOME COMPONENT: \$25 full year / \$15 half year

CONTACT PERSON: Ms A Alva

DRAMA (10DRA & 10DRAS)

Year 10 Drama allows students to experience different kinds of drama, the end point of each being a live performance for full year classes. The course includes improvisation, devising and stage drama (culminating in a performance) and study of theatre. Students will explore and develop their creativity, gain confidence in public presentation and develop skills in working cooperatively. Although previous experience in drama is not essential, a willingness to participate and work positively with others is expected.

CONTACT PERSON: Mrs S Binks

MUSIC (10MUS) - Full year course

This course aims to develop students' performance and composition skills while extending their understanding of musical concepts through musical knowledge and developing their theory and music technology skills. Students are taught and encouraged to use music computer technology, and they are given the opportunity to be involved in the orchestra, rock bands and jazz band. The opportunities for students to engage in a music career both while in school and as a career after leaving school alongside other student career interests are developing exponentially and the Hillcrest Music

Department is excited to provide the context and foundation for this to take place. This course, which is for the full year, is a pre-requisite for students intending to study NCEA Music L1. As a pre-requisite for studying NCEA Music is performing on an instrument, it is recommended that students taking this course learn an instrument and join a school music group or band during this year.

CONTACT PERSON: Mr M Cook

MUSIC (10MUSS) - Semester course

This is a half year (one semester) Music course (two terms) with a focus on performance and developing an understanding of musical elements and features of songs. Students are taught to use music computer technology to compose, produce and distribute their own songs and pieces. Students will learn about different styles of music including contemporary, hip-hop, EDM, classical and the Blues. Students will develop their theory skills and engage in performance music as part of a class band and solo performance.

CONTACT PERSON: Mr M Cook

MUSIC ACCELERATED COURSE (10MUC) - Full year course - by invitation only

This is an alternative course which a small group of Year 10 students will be invited to participate in. It is a programme for students who have already attained a high level in performance music and wish to extend their opportunities and develop their musicianship. This is a Level 1 NCEA course, the students will be undertaking the following NCEA standards:

91948; Use music in a music style. 91949;

Demonstrate performance skills. 91950;

Demonstrate understanding of music in relation to contexts. 91951; Shape music ideas to create an original composition.

All students involved in this course must be learning a musical instrument or have vocal lessons through enrolment in music tuition at school or privately. Students wishing to take this course sit an examination to ensure they understand scales, chords and music history. Each student must have a high level of performance and desire to develop their music skills. There is an expectation that students in this class will join the orchestra or other school music groups. There will be opportunities to perform at department concerts during the year. **CONTACT PERSON:** Mr M Cook

LEARNING LANGUAGES ARE FULL YEAR COURSES

LEARNING LANGUAGES

FOUNDATION ENGLISH (EF) - by invitation

This course is designed to meet the English language learning needs of students who are working at Foundation and Stage One levels of The English Language Learning Progressions (ELLP).

Students are provided with differentiated programmes to build on their strengths and support their English language learning needs across the four skills areas of reading, writing, listening and speaking. Regular time

is spent on learning high frequency vocabulary as well as topic work. As students increase their confidence and language proficiency they move into mainstream subjects.

ENGLISH LANGUAGE LEARNING (10ELL)

This English Language Learning course is designed for Year 10 English language learners from a range of language and cultural backgrounds. The course gives students extra time to improve their English listening, speaking, reading, writing and vocabulary levels. This subject covers a range of engaging topics. Students also study mainstream English or Foundation English depending on their language proficiency. Students will move on to 1ELL, 1EIP or mainstream English at the end of the year, as recommended.

CONTACT PERSON: Ms J Blank

FRENCH (10FRE)

Students continue to develop their skills in speaking, listening, reading and writing using a wide variety of tasks, authentic resources and digital tools. As well as learning about French culture they will learn how French is used around the world. Topics include: A mysterious tour around the school, Why learning French is important, Spot the difference, Make a French dish, Who has the busiest routine, Guess what I'm thinking of, Debate on the qualities of a leader, Who had the most different weekend from you, Buy the most food at the best price, Revision for final exam.

Although it is a continuation of the Year 9 course, it is possible for motivated students to begin at this level.

CONTACT PERSON: Mr M Menard

JAPANESE (10JAP)

Students continue to develop their language skills in reading, writing, speaking and listening while they learn about Japanese school life and some other aspects of life in Japan. The main learning objective of Year 10 Japanese is to be able to recognise, ask about, and talk about self and the immediate environment such as family, friends, and school. Students start the course with learning the basic Japanese scripts "HIRAGANA" which is the essential skill to succeed in senior levels. It is possible for motivated students to begin at this level. In Year 10, students will learn the Katakana script and a few more Kanji (Chinese characters). Cultural trips to Hamilton and Auckland may be organised.

CONTACT PERSON: Ms F Akiyama

CHINESE (10CHI)

The teaching of Chinese at this level is aimed at the development of the four communicative language skills: listening, speaking, reading and writing, and, with the aid of special topics, some understanding of the traditional and contemporary ways of life. Students study the following topics: Family, Describing themselves and Others, Home, Leisure-time, Sports, TV/Video/Films/Music, Food (Eating Out), Shopping/Clothing/Fashion Parade, Health.

CONTACT PERSON: Mrs C Howard-Shi

SPANISH (10SPA)

The teaching of Spanish at this level is aimed at the development of the four communicative language skills: listening, speaking, reading and writing, and, with the aid of special topics, some understanding of the Hispanic way of life. Students study the following topics: Family, Describing Themselves and Others, Home, Leisure-time, Sports, TV/Video/Films/Music, Food (Eating Out), Shopping/Clothing/Fashion Parade and Weather.

Special topics: The Spanish World (geographical review), Spain and the Discovery and Conquest of America, Family in the Hispanic World, Housing in the Hispanic World, Festivals in the Hispanic World and Music, Animals Native to Latin America.

CONTACT PERSON: Ms D Roznawska

TE REO MĀORI (10MĀO)

Year 10 Māori continues on from the Year 9 course. Students wishing to study Te Reo Māori in Year 10 must either have completed Year 9 Māori or have obtained the consent of the HOD Māori. This course further develops students' skills in speaking, listening, reading and writing. Topics studied include: sports, food, work around the house, meeting people and leisure activities.

CONTACT PERSON: Whaea Caseymla

SOCIAL SCIENCES

INTRODUCTION TO COMMERCE (10COMS) - Semester course

Following on from Money Matters in Year 9 students get to put some of the concepts into practice by running their own businesses! This course is designed for curious Year 10 students who want to explore the exciting world of commerce! Through interactive activities, real-world examples, and engaging projects, students will gain a foundational understanding of key business concepts.

Course Objectives:

- Introduce the fundamentals of commerce and business.
- Develop critical thinking and problem-solving skills in a business context.
- Spark creativity and encourage entrepreneurial thinking.

Course Structure:

Innovation Station

- Design Thinking Fundamentals: Introduce the core principles of design thinking and its role in innovation.

Marketing Mania

- The Power of Branding
- Marketing Mix: The 4 P's in Action
- Pitch your idea for a new product to our dragons!

Market Day Mayhem

- Production and Costing
- Preparation for Market Day
- Market Day!
- Reflection and Feedback

Assessment:

- Active participation in class discussions and activities
- Completion of individual and group projects related to each module
- Product development, marketing plan, and Market Day participation

This course emphasizes creating a fun and

practical learning experience by leading students directly to the rewarding conclusion of a Market Day.
This course leads to NCEA Level 1 Commerce.
CONTACT PERSON: Mrs J Kennedy

TECHNOLOGY COURSES ARE ALL SEMESTER COURSES EXCEPT DVC MTW & MTF WHICH HAVE A FULL YEAR COURSE AS WELL

TECHNOLOGY

DESIGN & VISUAL COMMUNICATION (10DVC (full year) & 10DVCS (semester))
This course builds upon the knowledge from the Year 9 course. Students will further develop their knowledge of the principles and elements of design, and extend their ability to apply a design process to solve product, system, and environmental design problems.

Aspects of the course include:

- Presentation techniques, sketching techniques, rendering, principles of design, application of the design process, using design briefs and model making.

Topics may include:

- Idea Generation (Ideation)
- Product Design: Portable speaker design and
- digital/physical modelling
- Promotional Design: Photoshop
- Architectural Design: Interior spaces and modelling (full year course only)

TAKE HOME COMPONENT: \$25 (full year) or \$10 (one semester). Students are encouraged to purchase their own A3 pad of drawing paper, 2B pencil and coloured pencils.

CONTACT PERSON: Mrs S Paris

ELECTRONICS (10ELTS)

This course follows on from Year 9 Electronics. In this practical course students understanding will be developed in:

- electricity
- circuits
- electronic components
- soldering
- programmable electronics
- prototyping using breadboards and veroboards.

Students will have some choice in projects based on previous experience. Those students who have not studied electronics in Year 9 may study this course after consulting with the TIC

TAKE HOME COMPONENT: \$25

CONTACT PERSON: Mr D Hopkirk

A Digital Technology course is compulsory. You can choose between MKOs or more in-depth DTPS or DTMS

MATIHKO - COMPUTER LITERACY (10MKOS)

This course covers all aspects of the Digital Technologies areas in the Curriculum. Students will gain vital skills and further their knowledge gained from 9MKO using digital technologies in contexts that are transferable to other areas of learning. The focus will be on being able to design and create digital outcomes and having a good understanding of planning, designing and computational thinking. Students need to use their own devices for this course. MKO will be taught in a normal classroom and not in a computer lab. It is important that students have a device not only for most subjects in school, especially for the MKO course as all work will be done online.

OR

DIGITAL TECHNOLOGIES MEDIA (10DTMS)

The aim of this more in-depth course is to prepare students for NCEA Digital Technologies courses in Digital Media. Digital Technologies Media is designed for students with a creative interest in Digital Media and Digital Technologies This is a half year option leading into full year courses in the senior school. Students learn to use a variety of software for different design purposes including:

- Developing graphic designs for Identity & Publications
- Website interface design
- Animation and multimedia
- 3D Modelling

Students also develop essential decision-making skills based on researching, planning, consulting stakeholders, developing ideas, testing and evaluating as part of the projects they undertake.

Areas of the Digital Technologies curriculum are explored in detail.

TAKE HOME COMPONENT: \$5 for 3D printing.

CONTACT PERSON: Mrs S Hooper / Miss C Bourke

OR

DIGITAL TECHNOLOGIES PROGRAMMING (10DTPS)

The aim of this more in-depth course is to prepare students for NCEA Digital Technologies courses in Programming and Computer Science-

Digital Technologies Programming is designed to extend computer enthusiasts interested in software design and problem solving.

Students learn how to use a range of software for different purposes including:

- Robotics
- Animation Graphics for gaming
- Coding for 3D environments
- Programming
- Web development in HTML and Javascript

Students also learn to research, plan, consult stakeholders, develop ideas, test and evaluate as part of projects they undertake.

The Digital Technologies progress outcomes and key strands from the Technology curriculum are explored and assessed.
TAKE HOME COMPONENT: \$5 FOR 3D printing.

CONTACT PERSON: Mrs K Langman

FOOD TECHNOLOGY AND NUTRITION (10FNFS)

This is a practical based course that focuses on developing students' knowledge of food, nutrition and technology. Students will prepare, cook and serve a variety of food using a range of recipes and skills. The topics studied include food safety, meal planning, teenage nutrition, and product development.
DONATION TOWARDS COST OF FOOD: \$30
CONTACT PERSON: Mr G Cogan

MATERIALS TECHNOLOGY- FABRICS (10MTF (full year) & 10MTFS (semester))

This is a practical-based course where students work with a range of textiles to construct various projects and garments. Skills in design and the use of materials and appropriate equipment will be developed throughout the course.

TAKE HOME COMPONENT: \$40.00 full year/\$20 half year. There will be further project costs.

CONTACT PERSON: Mrs S Paris

MATERIALS TECHNOLOGY

- WOOD (10MTW (full year) & 10MTWS (semester))

- METAL (10MTMS) (semester only)

This subject can be picked up at Year 10 although prior experience is an advantage. Students learn to follow the design process and develop outcomes in response to a brief. There is an emphasis on designing outcomes that are suitable for an intended use, as well as developing practical skills using a range of materials and equipment to complete a chosen outcome.

Students will also learn various aspects of the technology curriculum which support their classroom practice and help develop a deeper understanding of technology in the modern world. Costs relate to materials used.

TAKE HOME COMPONENT: \$40

CONTACT PERSON: Mr B Smith

MEDIA STUDIES (10MESC & 10MESS)

Note: Two separate courses.

You may choose one or both.

10MESC (Commercial Media Focus)

The Marvel Cinematic Universe, Disney+ miniseries based on Marvel Comics and DC comparisons make up a genre study on superheroes. Students will look at the common characteristics and their effects such as fanbase, franchise and developments in this industry. Students will develop media literacy and critical thinking by looking at how 'the media' represent groups, cultures & genders creating meanings, messages and values for audiences. They will apply learned skills of filming and editing to create their own marketed product in a visual advertisement in genres. It is Marvel Genre - Media

Representations - Video Production - Advertising.

CONTACT PERSON: Mrs L Stratford

10MESS (Social Media Focus)

This course has a social media focus. Investigate the impact of social media and trends on the internet. Memes, challenges, and when content goes viral. Looking at their origins, their appeal, and potential issues. Students will explore influencer culture to develop critical thinking skills by understanding concepts of misinformation, disinformation, forms of speech and their impact. They will apply learned skills of filming and editing to create their own Social Media Campaign with the creation of promotional material for a teen tv show/ film in groups. It is: Social Media. Teen Genre. Influencer Culture. Production skills.
CONTACT PERSON: Mrs L Stratford

THE FOLLOWING TWO COURSES ARE BY INVITATION

JEEP - Junior Enrichment & Extension Programme – by invitation

Hillcrest High School's Junior Enrichment and Extension Programme (JEEP) is offered in Year 9 and in Year 10 (in Semester 1). *Note: It is possible to apply for 10JEEP, without having done 9JEEP.*

JEEP's goal is to offer our junior gifted students opportunities to enrich and deepen their thinking and learning through inquiry driven classroom activities and EOTC experiences such as trips to the international film festival, live performance, exhibitions, tours of thought-provoking places and physical challenges. Students who take JEEP go on to excel in a range of areas, from sport, to academic subjects, music and the arts, cultural activities and many other extra-curricular activities. The majority of our senior student leaders at Hillcrest began their path to leadership in JEEP.

10JEEP is run in Semester 1 of Year 10, building upon and extending the foundations laid in 9JEEP.

Note: It is possible to apply for 10JEEP, without having done 9JEEP.

Selection Procedures

The selection process is rigorous for JEEP and includes a collation of the following information:

1. Assessing data available from contributing schools as well as our current AsTTle & PAT data;
2. Self-referral from students;
3. Teacher recommendation including discussions with Deans, form teachers and subject teachers;

Framework

JEEP's course is designed around the Autonomous Learner Model (Betts, 1985) to meet the cognitive, emotional and social needs of gifted students. By developing student's autonomy for lifelong learning, JEEP fosters a growing awareness of the world around us through inquiry-based learning and reflection, debate and discussion. Students are encouraged to master concepts by presenting seminars to

their peers, completing individual and group research projects and creating action plans for positive change within our community.

CONTACT: Mrs J Kennedy

YEAR 10 SPORTS DEVELOPMENT PROGRAMME – by invitation

Application Process

Students from the Year 9 Sports Development Program (9SDP) are invited to apply for the Year 10 Sports Development Program, which runs as a full-year course. There is a trial at the end of the school year for year 9's to be assessed for entry into the Year 10 Sports Development Programme (10SDP).

Course Content

This program is aimed to help student-athletes achieve higher levels of success in their chosen sports by providing a holistic understanding of sport and fitness, as well as sports science-related concepts.

Topics covered throughout the year include:

- * Human Anatomy & Physiology
- * Sports Nutrition
- * Character Development
- * Adventure-Based Learning
- * Learning to Train
- * Physical Testing
- * Professional Sport
- * Skill Acquisition
- * Team-Based Games and Challenges

Learning Approach

The course combines classroom theory with practical application in physical settings, ensuring that students can effectively put their knowledge into practice.

Opportunities

Students will have the chance to participate in various trips and community engagement events throughout the year. Previous trips have included:

- * Visiting Chiefs Rugby Training
- * WINTEC Sport Science Labs
- * Grassroots Trust Velodrome
- * Hillary Outdoors Get2Go
- * Lake Karapiro Beach Volleyball Tournament
- * Les Mills Gym Sessions
- * WILSS Amazing Race (Activity Managers)
- * Weet-Bix Kids TRYathlon (Marshalls)
- * Silverdale Primary Inter-School Athletics (Marshalls)

Hillcrest High School

STUDENT & PARENT AGREEMENT FOR THE SAFE USE OF DIGITAL TECHNOLOGY

In order to meet the objective of ensuring that teaching and learning is student-centred, through the use of digital devices, Hillcrest High School is committed to creating a safe online learning environment, and the development of students as capable digital citizens, as described in the Digital Citizenship Policy.

This agreement outlines the school's role in promoting the use of digital technology for learning, and supporting online safety approaches. It also outlines expectations and responsibilities of students as a member of our online community.

ROLE OF THE SCHOOL

Hillcrest High School will develop and maintain procedures around the safe and responsible use of digital technologies, school's network and systems, and the internet.

These procedures will maintain a safe school environment, as well as providing opportunities to receive and participate in education and support around the safe and responsible use of digital technologies and online environments.

STUDENT'S RESPONSIBILITIES

As a student of Hillcrest High School and a member of our community, it is expected that you will positively contribute towards making our school a place that is safe, respectful, and fair online and offline. This means enacting our school value of Respect for others, and helping to shape a positive online culture. This is being a 'digital citizen'.

As a digital citizen, you will:

- **Keep it positive.**
Always respect others online and communicate in a constructive way. Do not create or publish content that is indecent, threatening or offensive.
- **Protect privacy.**
Do not disclose sensitive personal information about yourself or another person in any digital communication. This includes sharing passwords, accessing devices or online sites belonging to others without consent and taking screenshots and sharing this content without consent.
- **Act cautiously.**
Anything you post or do online can influence what people think of you. Also, always think carefully about whether the information you see online is true. If you are unsure of something you will check to make sure it is correct.
- **Avoid online bullying.**
It is never okay to create or forward content that is harmful, inappropriate or hurtful, and may be against the law. If you are harassing people by sending multiple messages this is also considered online bullying and is unacceptable.
- **Be security smart.**
Keep personal information safe and secure by using strong passwords and not sharing them with others. This includes not accessing devices or online sites belonging to others without consent, not taking screenshots and on-sharing their personal content without their knowledge and permission, and not using a VPN (Virtual Private Network).

- **Check consent.**
Before downloading software to the school network or onto devices, ask for permission. It is never okay to interfere with the school systems, digital technologies, equipment/network or the online security of another person.
- **Recognise others' work.**
Follow copyright and intellectual property requirements by attributing references, images, text, audio and video appropriately.
- **Respect the rights of others.**
Only record and share video, photo or audio content if the people in it know it has been taken and have provided their consent.
- **Use personal devices sensibly.**
Keep your device on silent during school hours and only use it outside class time, unless you have been given permission to use it during lessons.
- **Seek help.**
Sometimes you or someone you know will feel unsafe or come across inappropriate or hurtful online content and behaviours. If this happens talk to a trusted adult about what can be done, or contact Netsafe (<https://www.netsafe.org.nz/contactnetsafe/>) directly.

STUDENT DECLARATION

I understand the expectations and behaviours required of me when I use digital technologies at school. I understand these apply to all devices used at school whether they are owned by school or if it is my personal device.

I understand I have the right to use and experience online environments and digital technologies in positive ways, as do others. With these rights, come responsibilities.

I understand and agree to support and uphold these expectations and the responsibilities outlined in this agreement.

I know that if my actions or behaviours do not align with the User Agreement there may be consequences. This may include the loss of access to the internet on school-owned devices or personally owned device used at school.

PARENT/ WHAANAU/ GUARDIAN DECLARATION

I have read the student declaration and have talked with my child about what it means to them. I am happy that my child understands what this means, and that they are capable of working within the guidelines.

I know that if my child behaves or acts in ways that don't align with those detailed in the User Agreement there may be consequences which the school will talk to me about.

TO THE STUDENT AND PARENT/LEGAL GUARDIAN/CAREGIVER, PLEASE:

1. Read this document carefully to check that you understand your responsibilities under this agreement.
2. Sign digitally as part of the online enrolment, (or sign on page 6 of the printed enrolment form.))
This will remain on the student's file.
3. Keep this document for future reference.

Developed using the Netsafe Policy and User Agreements (<https://www.netsafe.org.nz/the-kit/policy-user-agreements/>)

Hillcrest High School

BLANKET CONSENT FOR EOTC

Education Outside The Classroom (EOTC) is the name given to all events/activities that occur outside the classroom, both on and off the school site. This includes sport.

- Our school believes in using a range of environments and experiences to enhance our students' learning.
- We have ready access to the sea, rivers, mountains, and the bush in our area and beyond. We are also close to various built environments in our community. These areas are rich learning environments for our students both in and out of school. They need to learn how to be safe. Our school also values the concept of providing students with opportunities. Thus some of the learning for students occurs beyond the school site and this document is seeking your consent for your child/ren to participate in such learning

The Ministry of Education's **EOTC guidelines** identify four EOTC activity types, each with recommended types of parental/caregiver consent. In brief they are:

Type of event	Description	Type of consent
A	On site- in the school grounds 1. Lower risk environments 2. Higher risk environments*	1. No consent 2. Blanket consent at enrolment
B	Off-site events in the local community occurring in school time. 1. Lower risk environments 2. Higher risk environments*	1. Blanket consent at enrolment. 2. Blanket consent at enrolment
C	Off-site events - finishing after school finishes 1. Lower risk environments 2. Higher risk environments*	1. Blanket consent at enrolment. 2. Separate consent for each event or programme
D	Off-site residential overnight events 1. Lower risk environments 2. Higher risk environments*	1. Separate consent for each event or programme 2. Separate consent for each event or programme

*Involves risk assessed to be greater than that associated with the average family activity.

All **EOTC activity categories** require staff to undertake an analysis of the risks, and identify the management strategies required to eliminate, isolate and minimise the risks. Emergency procedures are also in place.

TO THE STUDENT AND PARENT/LEGAL GUARDIAN/CAREGIVER, PLEASE:

1. Read this document carefully to check that you understand your responsibilities under this agreement.
 2. Sign digitally as part of the online enrolment, (or sign on page 6 of the printed enrolment form.)
This will remain on the student's file.
 3. Keep this document for future reference.
-

Checklist and Notes for Enrolment

Please check that you have:

1 Page 1: Student Information

- Provided all information requested
 - If Maori descent, indicated Iwi affiliation on last page
 - Attached a copy of New Zealand birth certificate or New Zealand passport
- OR
- For overseas applicants - attached a copy of passport showing either permanent residency or student's permit and parent's work permit.

IN-ZONE (Choose one):

- OWN HOME
 - Attached as proof of in-zone residence a copy of one of the following e.g. recent electricity or telephone bill, sale and purchase agreement
- RENTING
 - Attached as proof of in-zone residence a copy of one of the following e.g. recent electricity or telephone bill, tenancy agreement
- BOARDING IN ZONE
 - Attached a completed 'Boarding In-Zone' form (available from school office)
 - Attached a 'Statutory Declaration' (obtainable from a JP or Solicitor)
 - Attached as proof of in-zone residence a copy of one of the following e.g. recent electricity or telephone bill, tenancy agreement

OUT-OF-ZONE

- Indicate priority level sought.

2 Page 2: Parent/Caregiver/Emergency Contact Information

- Completed all sections

3 Page 3: Completed and signed and dated Health Information

4 Page 5: Read carefully and signed and dated by both parent/caregiver and student

5 Keep this document for future reference as it contains the *Blanket Consent for EOTC* and the *Responsible Use Agreement*, both of which you agree to abide by when you sign the enrolment form.

Notes on completing this enrolment

The address given at the time of application for enrolment must be the student's usual place of residence when the student begins instruction at Hillcrest High School. This address will be used for any mail sent from the school.

The Ministry of Education has advised that parents should be warned of the possible consequences of deliberately attempting to gain unfair priority in enrolment by knowingly giving a false address or making an in-zone living arrangement which they intend to be only temporary, for example

- Renting accommodation in-zone on a short term basis;
- Arranging temporary board in-zone with a relative or family friend;
- Using the in-zone address of a relative or friend as an 'address of convenience' with no intention to live there on an ongoing basis.

If the school learns that a student is no longer living at the in-zone address given at the time of application for enrolment, and has reasonable grounds to believe that a temporary in-zone residence has been used for the purpose of unfairly gaining priority in enrolment at the school, then the Board may review the enrolment. Unless the parents can provide a satisfactory explanation within 10 days, the Board may annul the enrolment. This course of action is provided for under Section 110 (A) of the Education Act 1989.

The school may actively collect information to ensure that enrolment data provided is accurate.
